In many parts of the world today indigenous sound healers carry on their ancient traditions of comforting and curing their peoples using music, chant and ritual songs. There is much to be learned from these extraordinary practitioners and their 'musical prescriptions' but there is a very real danger that the ways of the modern world will drown out their sacred voices. "Shaman, Jhankri, Nele" archives these endangered traditions. Gathered within this 96 page book and cd are the personal testimonies and healing songs of eighteen healers from indigenous cultures around the world. These remarkable individuals are living treasures, dedicated culture bearers, who preserve one of the most profound legacies bequeathed to mankind.
